Rathlavath Shankar My Portfolio

Objective

SAP S/4HANA ABAP certified B.Tech CSE (Data Science) student skilled in ABAP programming, ABAP Objects, ALV reports and CDS Views. Seeking an entry-level SAP ABAP developer role, with the aim of growing into RAP and Fiori/OData development.

Education

Computer Science(Data Science), *Guru Nanak institutions Technical Campus* 09/2024 – Present
Pursuing a degree that blends programming with data science. Core Ibrahimpatnam, TG

Professional Experience

Java developer Intern, *Intern* 06/2024 – 08/2024
Designed, coded and debugged Java applications as part of a hands-on internship.Strengthened skills in Java, Object-Oriented Programming. Remote

Projects

Procure-to-Pay: Purchase Order Approval Application(SAP RAP),
SAP RAP · ABAP Cloud · Managed Scenario with Draft · Fiori Elements (OData V4)

- Built a purchase order approval app using managed RAP with draft, CDS views and a Fiori Elements UI (OData V4). It has automatic totals, validations, Submit/Approve/Reject actions, and a rule that stops creators from approving their own orders.

SmartForm Billing System(SAP ECC, Classical ABAP), *ABAP · SmartForms · Data Dictionary · Open SQL · ALV*

- Built an invoice app in Classical ABAP that reads billing data from custom tables and prints it through a SmartForm with print preview. It calculates the grand total inside the form and checks for errors with sy-subrc.

Student Information Management System (SAP ECC, Classical ABAP),
ABAP · ALV Grid · Search Help · SmartForms · Open SQL

- Built an ALV report in Classical ABAP with a Student ID search help and a clickable Student ID that opens semester-wise marks and attendance. It also prints each student's record through a SmartForm.

Skills

SAP ABAP
Reports (Classical, Interactive, ALV), Selection Screens, Internal Tables, Debugging, ABAP Objects, Open SQL

SAP S/4HANA
Data Dictionary (Tables, Views, Structures, Search Helps), CDS Views, Code Pushdown, BAPIs, BAdIs and User Exits, Smartforms, OData basics

Certificates

- SAP Certified - Backend Developer - ABAP Cloud
